CroxX

15-19-15 + TE 6M

Fully polymer coated fertilizer for a controlled nutrient release
Compound NPK Fertilizer or physical blends with nutrients in various ratios with MgO and TE.

Customized and flexible formulas are produced depending on climate conditions and crop needs ensuring a growth adapted nutrient release avoiding nutrient losses by fixation, leaching or volatilization.

For fertilization in Fruit Tree Plantations, Forestry, Plant Hole Fertilization and substrate mixes in ornamental crops.

15-19-15 + TE 6M

Benefits

- ✔ Flexible Formulas on request, including MgO and TE
- ✔ Longevities: 3, 6, 9, 12 months possible
- ✔ Controlled nutrient release depending on moisture and temperature
- ✔ Safe nutrient supply adapted to nutrient demand of the plant
- ✔ Less fertilizer applications and reduced overall volumes

Packaging: 100g

CroxX

15-19-15 + TE 6M

CroxX cote (6M) 15-19-15+TE
15 N / 19 P_2O_5 / 15 K_2O 10.3 SO_3 / 1.2 MgO / 0.005 Ca
0.04 B / 0.02 Cu / 0.02 Fe / 0.04 Mn / 0.03 Zn / 0.0001 Mo

Other customized and flexible formulas possible on request!
