CroxX stim

Algae

Liquid biostimulant based on natural Seaweed Extract (*Ascophyllum nodosum*) with high content of Alginic acid and presence of natural growth hormones. Additionally, stimulants such as betaine and polyamines stimulate natural defense systems of plants and promote vegetative and root growth.

For Foliar Application and Fertigation.

Algae

Benefits

- ✔ Enhances stress resistance
- ✔ Higher yield under unfavorable condition
- ✔ Growth promotion, especially roots
- ✔ Increase fruit quality (Shape and size)

Content (% w/w)
17.0 Seaweed extract / 4.0 N / 3.0 K_2O 2.7 Alginic Acid / 0.75 Mannitol

Bulk density (kg/l): 1.33 / **pH:** 5.0

Packaging: 100ml / 250ml / 500ml / 1l / 5l
