

CroxX micro

Boron

Liquid boron fertilizer for foliar application and fertigation in crops with high boron demand due to soil deficiency, critical growth stages, or naturally high boron requirements.

Adequate boron supply enhances flower fertility and improves pollination in crops such as fruits, vineyards, potatoes, citrus, and oilseed rape.

For Foliar Application and Fertigation

Content (% w/w)

11.0 B

Bulk density (kg/l): 1.37 / pH: 7.7

CE certified

Boron

Benefits

- ✓ Secures B-supply
- ✓ Increases fertility of flowers
- ✓ Maximizes fruit setting

Packaging: 1l / 5l / 20l / 1000l
